

Bellagio Fastback Touring

The need of a small élite of rich car enthusiasts to have a quick, sporty but also roomy and functional granturismo, able to carry without problems any equipment useful in the spare time, such as shotguns, golf-bags, skis and water-skis, dates back to the Fifties. In Great Britain they were defined *shooting brake* and in general they were produced in small series using high standing sportscars chassis. But the industrialization brought to the disappearance of those prestigious cars.

Since now on, gentlemen drivers can find this kind of car thanks to Touring Superleggera, the reborn coachbuilders based in Milan launching the most exclusive fastback of the 21st century: the *Bellagio Fastback Touring*, a five doors fastback based on Maserati Quattroporte mechanics, that will be produced in small series under the customer's request. The *Bellagio Fastback Touring* has really unique features:

- It's the most luxury and quick fastback in the world
- It's got dimensions, technical specifications (max speed 275 km/h, 0-100 km/h acceleration in 5,2 sec.) and safety solutions identical to the saloon's, but for hatchback and 50 kg more
- Folding the rear seats, the boot space is functional and roomy, 1,80 m long
- The boot space can be designed and assembled following the buyer's needs: without modifying the space, the factory can in fact create made to measure protected trunks and supplementary bays
- Produced under request in small series, the *Bellagio Fastback Touring* can be realized with colours, interiors and materials directly chosen by the customer
- The *Bellagio Fastback Touring* has four comfortable seats and offers, between the rear seats, a capable space equipped following the client's requests: it can become a bar, a small refrigerator, a separated space for game

Those interested in buying a *Bellagio Fastback Touring* must address to Carrozzeria Touring Superleggera or to Rossocorsa, the Milan Maserati dealer. After the delivery of a Maserati Quattroporte saloon (any version) the work starts and is realized together with the client, who'll be involved in any choice: a unique and fascinating experience, almost impossible to imagine, in the era of mass production also for extreme cars.

The price of a *Bellagio Fastback Touring* depends on the basis of the chosen saloon version, of specific requests and of used materials, but the starting price is identical or even lower than equivalent sportscars: with a *Bellagio Fastback Touring* a particularly demanding expert can have a custom-built car at the price of a supercar. And, above all, a tailor-made Maserati signed Carrozzeria Touring Superleggera.

BELLAGIO FASTBACK TOURING

TECHNICAL SPECIFICATIONS

BODYWORK

Fastback 5 doors, 4 seats

ENGINE

Engine layout	V8, 90°
Total displacement	4.244 cc
Bore and stroke	92x79,8 mm
Compression ratio	11:1
Max power	295 kW (400 CV) at 7.000 rpm
Max torque	451 Nm (46 kgm) at 4.500 rpm

PERFORMANCE

Max speed	275 km/h
0-100 km/h	5,2 sec
Fuel consumption (combined)	18,90 l/100 km
Co2 emissions (combined)	440 g/km

DIMENSIONS AND WEIGHT

Overall length	5.052 mm
Overall width	1.895 mm
Height	1.438 mm
Wheelbase	3.064 mm
Front track	1.582 mm
Rear track	1.595 mm
Front overhang	856 mm
Rear overhang	1.132 mm
Turning circle	12,3 m
Boot capacity	500/1.500 liters
Fuel capacity	90 liters
Dry weight	1.910 kg
Kerb weight	2.020 kg

BRAKES

Brembo, 4 ventilated discs, front	330x32 mm
Brembo, 4 ventilated discs, rear	316x24 mm

TYRES

Front	245/40 ZR19
Rear	285/35 ZR19
